

**PROSPECTUS SUPPLEMENT DATED August 29, 2016
TO
PROSPECTUS DATED MAY 9, 2016**

INTELLINETICS, INC.

This prospectus supplement should be read in conjunction with our prospectus dated May 9, 2016 and in particular “Risk Factors” beginning on page 6 of the prospectus.

This prospectus supplement includes the attached Quarterly Report on Form 10-Q of Intellinetics, Inc., filed with the Securities and Exchange Commission on August 15, 2016.

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2016

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 000-31671

INTELLINETICS, INC.

(Exact name of registrant as specified in its charter)

Nevada

(State or Other Jurisdiction of Incorporation or
Organization)

87-0613716

(I.R.S. Employer Identification No.)

2190 Dividend Drive
Columbus, Ohio

(Address of Principal Executive Offices)

43228

(Zip Code)

(614) 388-8909

(Registrant's telephone number, including area code)

(Former name and former address, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting company)

Accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act): Yes No

As of August 12, 2016 there were 16,809,575 shares of the issuer's common stock outstanding.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the documents incorporated into this report by reference contain, and we may from time to time make, forward-looking statements. From time to time in the future, we may make additional forward-looking statements in presentations, at conferences, in press releases, in other reports and filings and otherwise. Forward-looking statements are all statements other than statements of historical fact, including statements that refer to plans, intentions, objectives, goals, targets, strategies, hopes, beliefs, projections, prospects, expectations or other characterizations of future events or performance, and assumptions underlying the foregoing. The words “may”, “could”, “should”, “would”, “will”, “project”, “intend”, “continue”, “believe”, “anticipate”, “estimate”, “forecast”, “expect”, “plan”, “potential”, “opportunity”, “scheduled”, “goal”, “target” and “future”, variations of such words, and other comparable terminology and similar expressions and references to future periods are often, but not always, used to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements about the following:

- our prospects, including our future business, revenues, expenses, net income, earnings per share, margins, profitability, cash flow, cash position, liquidity, financial condition and results of operations, backlog of orders and revenue, our targeted growth rate, our goals for future revenues and earnings, and our expectations about realizing the revenues in our backlog and in our sales pipeline;
- the effects on our business, financial condition and results of operations of current and future economic, business, market and regulatory conditions, including the current economic and market conditions and their effects on our customers and their capital spending and ability to finance purchases of our products, services, technologies and systems;
- the effects of fluctuations in sales on our business, revenues, expenses, net income, earnings per share, margins, profitability, cash flow, capital expenditures, liquidity, financial condition and results of operations;
- our products, services, technologies and systems, including their quality and performance in absolute terms and as compared to competitive alternatives, their benefits to our customers and their ability to meet our customers’ requirements, and our ability to successfully develop and market new products, services, technologies and systems;
- our markets, including our market position and our market share;
- our ability to successfully develop, operate, grow and diversify our operations and businesses;
- our business plans, strategies, goals and objectives, and our ability to successfully achieve them;
- the sufficiency of our capital resources, including our cash and cash equivalents, funds generated from operations, availability of borrowings under our credit and financing arrangements and other capital resources, to meet our future working capital, capital expenditure, lease and debt service and business growth needs;
- the value of our assets and businesses, including the revenues, profits and cash flow they are capable of delivering in the future;
- industry trends and customer preferences and the demand for our products, services, technologies and systems;
- the nature and intensity of our competition, and our ability to successfully compete in our markets;

- business acquisitions, combinations, sales, alliances, ventures and other similar business transactions and relationships; and
- the effects on our business, financial condition and results of operations of litigation, warranty claims and other claims and proceedings that arise from time to time.

Any forward-looking statements we make are based on our current plans, intentions, objectives, goals, targets, strategies, hopes, beliefs, projections and expectations, as well as assumptions made by and information currently available to management. Forward-looking statements are not guarantees of future performance or events, but are subject to and qualified by substantial risks, uncertainties and other factors, which are difficult to predict and are often beyond our control. Forward-looking statements will be affected by assumptions and expectations we might make that do not materialize or that prove to be incorrect and by known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from those expressed, anticipated or implied by such forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, those described in “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, which have not materially changed as of the date of this report, as well as other risks, uncertainties and factors discussed elsewhere in this report, in documents that we include as exhibits to or incorporate by reference in this report, and in other reports and documents we from time to time file with or furnish to the Securities and Exchange Commission. In light of these risks and uncertainties, you are cautioned not to place undue reliance on any forward-looking statements that we make.

Any forward-looking statements contained in this report speak only as of the date of this report, and any other forward-looking statements we make from time to time in the future speak only as of the date they are made. We undertake no duty or obligation to update or revise any forward-looking statement or to publicly disclose any update or revision for any reason, whether as a result of changes in our expectations or the underlying assumptions, the receipt of new information, the occurrence of future or unanticipated events, circumstances or conditions or otherwise.

See Notes to these condensed consolidated financial statements

1. Business Organization and Nature of Operations

Intellinetics, Inc., formerly known as GlobalWise Investments, Inc. (“Intellinetics”), is a Nevada holding company incorporated in 1997, with a single operating subsidiary, Intellinetics, Inc., an Ohio corporation (“Intellinetics Ohio,” together with Intellinetics, the “Company,” “we,” “us” and “our”). Intellinetics Ohio was incorporated in 1996, and on February 10, 2012, Intellinetics Ohio became the sole operating subsidiary of Intellinetics as a result of a reverse merger and recapitalization.

The Company is an enterprise content management (ECM) software development, sales and marketing company serving both the public and private sectors. In the public sector, the Company’s products, services and process models serve, principally, the critical needs of law enforcement and compliance agencies within the state and local government establishment.

The Company provides its software solutions principally through (i) the direct licensing of its software installed on customer computer platforms and (ii) providing the applications as a service, accessible through the internet. The Company’s comprehensive solutions include services that range from pre-installation assessment, project scoping, implementation, consulting and ongoing software maintenance and customer support.

2. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”) for interim financial information and the instructions to Form 10-Q and Article 8.03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP. In the opinion of management, all adjustments (consisting of normal accruals) considered for a fair presentation of the consolidated financial position of the Company as of June 30, 2016 and the consolidated results of its operations and cash flows for the six months ended June 30, 2016 and June 30, 2015, have been included. The Company has evaluated subsequent events through the issuance of this Form 10-Q. Operating results for the three months ended June 30, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016 or any other interim or future period. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended December 31, 2015 included in the Company’s Form 10-K filed with the Securities and Exchange Commission on March 28, 2016.

3. Liquidity and Management’s Plans

Through June 30, 2016, the Company has incurred an accumulated deficit since inception of \$ 14,316,169. At June 30, 2016, the Company had a cash balance of \$ 401,842.

From the Company’s inception, it has generated revenues from the sales and implementation of its internally generated software applications.

The Company’s plan is to increase its sales and market share by developing an expanded network of resellers through which the Company will sell its expanded software product portfolio. The Company expects that this marketing initiative will require that it hire and develop an expanded sales force and enhance its product marketing efforts, all of which will require additional capital.

The Company expects that through the next 12 months, the capital requirements to fund the Company’s growth, service existing debt obligations, and to cover the operating costs as a public company will consume substantially all of the cash flows that it intends to generate from its operations. The Company further believes that during this period, while the Company is focusing on the growth and expansion of its business, the gross profit that it expects to generate from operations will not generate sufficient funds to cover these anticipated operating costs. Our cash requirements are insufficient by approximately \$110,000 per month. During 2015 and the six months ending June 30, 2016, the Company has used the proceeds from convertible note issuances and the sale of common stock to sustain operations and to follow through on the execution of its business plan. There is no assurance that the Company will have sufficient funds to fund the Company’s operations. Given these conditions, the Company’s ability to continue as a going concern is contingent upon increasing its revenues and successfully managing its cash requirements. In addition, the Company’s ability to continue as a going concern must be considered in light of the problems, expenses and complications frequently encountered by entrants into established markets, the competitive environment in which the Company operates and its cash requirements. These factors, among others, raise substantial doubt about the Company’s ability to continue as a going concern.

Since inception, the Company’s operations have primarily been funded through a combination of gross margins, state business development loans, bank loans, convertible loans and loans from friends and family, and the sale of securities. Although management believes that the Company has access to capital resources, there are currently no commitments in place for new financing at this time and there is no assurance that the Company will be able to obtain funds on commercially acceptable terms, if at all.

During the six months ended June 30, 2016, the Company raised \$ 559,285 through the sale of common stock and warrants. The proceeds from the sale were used to fund the Company's working capital needs and debt repayment.

The current level of cash and operating margins may not be enough to cover the existing fixed and variable obligations of the Company, so increased revenue performance and the addition of capital are critical to the Company's success.

The Company's financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should it be unable to continue as a going concern.

4. Corporate Actions

On February 10, 2012, Intellinetics Ohio was acquired by Intellinetics (formerly known as "GlobalWise Investments, Inc."), pursuant to a reverse merger, with Intellinetics Ohio remaining as a wholly-owned subsidiary of Intellinetics.

On September 1, 2014, the Company changed its name from GlobalWise Investments, Inc., to Intellinetics, Inc. and effected a seven (7)-to-one (1) reverse stock split of the Company's common stock. All share and per share amounts herein have been adjusted to reflect the reverse stock split.

5. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses. Actual results could differ from estimated amounts.

Significant estimates and assumptions include valuation allowance related to receivables, the recoverability of long-term assets, depreciable lives of property and equipment, deferred taxes and related valuation allowances. The Company's management monitors these risks and assesses its business and financial risks on a quarterly basis.

Concentrations of Credit Risk

The Company maintains its cash with high credit quality financial institutions. At times, the Company's cash and cash equivalents may be uninsured or in deposit accounts that exceed the Federal Deposit Insurance Corporation insurance limit.

The number of customers that comprise the Company's customer base, along with the different industries, governmental entities and geographic regions, in which the Company's customers operate, limits concentrations of credit risk with respect to accounts receivable. The Company does not generally require collateral or other security to support customer receivables; however, the Company may require its customers to provide retainers, up-front deposits or irrevocable letters-of-credit when considered necessary to mitigate credit risk. The Company has established an allowance for doubtful accounts based upon facts surrounding the credit risk of specific customers and past collections history. Credit losses have been within management's expectations. At June 30, 2016 and December 31, 2015, the Company allowance for doubtful accounts was \$ 29,327 and \$ 23,786, respectively.

Property and Equipment

Property and equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. Depreciation and amortization is computed over the estimated useful lives of the related assets on a straight-line basis. Furniture and fixtures, computer hardware and purchased software are depreciated over 3 to 7 years. Leasehold improvements are amortized over the life of the lease or the asset, whichever is shorter, generally 7 to 10 years. Upon retirement or other disposition of these assets, the cost and related accumulated depreciation and amortization of these assets are removed from the accounts and the resulting gains and losses are reflected in the results of operations.

Impairment of Long-Lived Assets

The Company accounts for the impairment and disposition of long-lived assets in accordance with Accounting Standards Codification ("ASC") Topic 360, "Property, Plant, and Equipment." The Company tests long-lived assets or asset groups, such as property and equipment, for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable.

Circumstances which could trigger a review include, but are not limited to: significant adverse changes in the business climate or legal factors; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and a current expectation that the asset will more likely than not be sold or disposed of before the end of its estimated useful life.

Recoverability is assessed based on comparing the carrying amount of the asset to the aggregate pre-tax undiscounted cash flows expected to result from the use and eventual disposal of the asset or asset group. Impairment is recognized when the carrying amount is not recoverable and exceeds the fair value of the asset or asset group. The impairment loss, if any, is measured as the amount by which the carrying amount exceeds fair value, which for this purpose is based upon the discounted projected future cash flows of the asset or asset group.

Share Based Compensation

The Company accounts for stock-based payments to employees in accordance with ASC 718, "Stock Compensation" ("ASC 718"). Stock-based payments to employees include grants of stock that are recognized in the consolidated statement of operations based on their fair values at the date of grant.

The Company accounts for stock-based payments to non-employees in accordance with ASC 718 and AC 505-50, "Equity-Based Payments to Non-Employees," which requires that such equity instruments are recorded at their fair value on the measurement date, with the measurement of such compensation being subject to periodic adjustment as the underlying equity instruments vest.

The grant date fair value of stock option awards is recognized in earnings as share-based compensation cost over the requisite service period of the award using the straight-line attribution method. The Company estimates the fair value of the stock option awards using the Black-Scholes-Merton option pricing model. The exercise price of options is specified in the stock option agreements. The expected volatility is based on the historical volatility of the Company's stock for the previous period equal to the expected term of the options. The expected term of options granted is based on the midpoint between the vesting date and the end of the contractual term. The risk-free interest rate is based upon a U.S. Treasury instrument with a life that is similar to the expected term of the options. The expected dividend yield is based upon the yield expected on date of grant to occur over the term of the option.

On January 1, 2016, the Company granted employees stock options to purchase 250,000 shares of common stock of the Company at an exercise price of \$0.90 per share in accordance with the 2015 Intellinetics Inc. Equity Incentive Plan, with vesting continuing until 2019. The total fair value of \$196,250 for these stock options will be recognized by the Company over the applicable vesting period. The total stock option compensation for the three and six months ended June 30, 2016 was \$12,266 and \$73,594, respectively.

On February 10, 2016, the Company granted employees stock options to purchase 210,000 shares of common stock of the Company at an exercise price of \$0.96 per share, in accordance with the 2015 Intellinetics Inc. Equity Incentive Plan, with vesting continuing until 2020. The total fair value of \$174,748 for these stock options will be recognized by the Company over the applicable vesting period. The total stock option compensation for the three and six months ended June 30, 2016 was \$10,892 and \$16,757, respectively.

On January 2, 2016 the Company issued 69,433 new shares of restricted common stock to directors of the Company in accordance with the Company's Equity Incentive Plan. Stock compensation of \$62,500 was recorded on the issuance of the common stock.

Software Development Costs

Software development costs for software to be sold or otherwise marketed incurred prior to the establishment of technological feasibility are expensed as incurred. The Company defines establishment of technological feasibility as the completion of a working model. Software development costs incurred subsequent to the establishment of technological feasibility through the period of general market availability of the product are capitalized, if material. To date, all software development costs for software to be sold or otherwise marketed have been expensed as incurred. In accordance with ASC 350-40, the Company capitalizes purchase and implementation costs of internal use software. No such costs were capitalized during the periods presented.

Recent Accounting Pronouncement

In May 2014, the FASB issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. The core principle of ASU 2014-09 is built on the contract between a vendor and a customer for the provision of goods and services. It attempts to depict the exchange of rights and obligations between the parties in the pattern of revenue recognition based on the consideration to which the vendor is entitled. To accomplish this objective, ASU 2014-09 requires five basic steps: (i) identify the contract with the customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, (v) recognize revenue when (or as) the entity satisfies a performance obligation. Entities will generally be required to make more estimates and use more judgment than under current guidance, which will be highlighted for users through increased disclosure requirements. In July 2015, the FASB deferred the effective date for one year beyond the originally specified effective date. The update is now effective for public entities for annual periods beginning after December 15, 2017, including interim periods therein. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. Three basic transition methods are available – full retrospective, retrospective with certain practical expedients, and a cumulative effect approach. Management is in the process of evaluating the impact that adoption of ASU 2014-09 will have on the consolidated financial statements and has not yet determined the method by which the Company will adopt the standard.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability rather than as an asset. The recognition and measurement guidance for debt issuance costs are not affected by ASU 2015-03. The guidance is effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The guidance is required to be applied retrospectively and early adoption is permitted. The Company adopted the new guidance effective January 1, 2016. Debt issuance costs that are now presented as a direct reduction from the carrying amount of the associated debt liability amounted to \$2,839 and \$4,255 at June 30, 2016 and December 31, 2015, respectively.

Revenue Recognition

a) Sale of Software

The Company recognizes revenues in accordance with ASC Topic 985-605, "Software Revenue Recognition" ("ASC 985-605").

The Company records revenues from the sale of software licenses when persuasive evidence of an arrangement exists, the software product has been installed, there are no significant uncertainties surrounding product acceptance by the customer, the fees are fixed and determinable, and collection is considered probable. Revenues included in this classification typically include sales of additional software licenses to existing customers and sales of software to the Company's Resellers (See section h) – Reseller Agreements, below).

The Company assesses whether payment terms are customary or extended in accordance with normal practice relative to the market in which the sale is occurring. The Company's sales arrangements generally include standard payment terms. These terms effectively relate to all customers, products, and arrangements regardless of customer type, product mix or arrangement size.

If an undelivered element for the arrangement exists under the license arrangement, revenues related to the undelivered element are deferred based on Vendor Specific Objective Evidence ("VSOE") of the fair value of the undelivered element. Often, multiple-element sales arrangements include arrangements where software licenses and the associated post-contract customer support ("PCS") are sold together. The Company has established VSOE of the fair value of the undelivered PCS element based on the contracted price for renewal PCS included in the original multiple element sales arrangement, as substantiated by contractual terms and the Company's significant PCS renewal experience, from the Company's existing customer base.

The Company records the revenues for the sales of software with professional services as prescribed by ASC 985-605, in accordance with the contract accounting guidelines in ASC 605-35, "Revenue Recognition: Construction-Type and Production-Type Contracts" ("ASC 605-35"), after evaluating for separation of any non-ASC 605-35 elements in accordance with the provisions of ASC 605-25, "Revenue Recognition: Multiple-Element Arrangements," as updated. The Company accounts for these contracts on a percentage of completion basis, measured by the percentage of labor hours incurred to date to estimated total labor hours for each contract, or on a completed contract basis when dependable estimates are not available.

The fair value of any undelivered elements in multiple-element arrangements in connection with the sales of software licenses with professional services are deferred based upon VSOE.

b) Sale of Software as a Service

Sale of Software as a Service consists of revenues from arrangements that provide customers the use of the Company's software applications, as a service, typically billed on a monthly or annual basis. Advance billings of these services are not recorded to the extent that the term of the arrangement has not commenced and payment has not been received. Revenue on these services is recognized ratably over the term of the underlying arrangement.

c) Sale of Software Maintenance Services

Software maintenance services revenues consist of revenues derived from arrangements that provide PCS to the Company's software license holders. These revenues are recognized ratably over the term of the contract. Advance billings of PCS are not recorded to the extent that the term of the PCS has not commenced and payment has not been received.

d) Sales of Professional Services

Professional services consist principally of revenues from consulting, advisory services, training and customer assistance with management and uploading of data into the Company's applications. When these services are provided on a time and material basis, the Company records the revenue as the services are rendered, since the revenues from services rendered through any point in time during the performance period are not contingent upon the completion of any further services. Where the services are provided under a fixed priced arrangement, the Company records the revenue on a proportional performance method, since the revenues from services rendered through any point in time during the performance period are not contingent upon the completion of any further services.

e) Sale of Third Party Services

Sale of third party services consist principally of third party software and/or equipment as a pass through of software and equipment purchased from third parties at the request of customers.

f) Deferred revenues

The Company records deferred revenue primarily related to software maintenance support agreements, when the customer pays for the contract prior to the time the services are performed. Substantially all maintenance agreements have a one-year term that commences immediately following the delivery of the maintained products or on the date of the applicable renewal period.

g) Rights of return and other incentives

The Company does not generally offer rights of return or any other incentives such as concessions, product rotation, or price protection and, therefore, does not provide for or make estimates of rights of return and similar incentives. The Company, from time to time, may discount bundled software sales with PCS services. Such discounts are recorded as a component of the software sale and any revenue related to PCS is deferred over the PCS period based upon appropriate VSOE of fair value.

h) Reseller agreements

The Company executes certain sales contracts through resellers and distributors (collectively, "Resellers"). The Company recognizes revenues relating to sales through Resellers when all the recognition criteria have been met—in other words, persuasive evidence of an arrangement exists, delivery has occurred in the reporting period, the fee is fixed and determinable, and collectability is probable. In addition, the Company assesses the credit-worthiness of each Reseller, and if the Reseller is undercapitalized or in financial difficulty, any revenues expected to emanate from such Resellers are deferred and recognized only when cash is received and all other revenue recognition criteria are met.

Advertising

The Company expenses the cost of advertising as incurred. Advertising expense for the three and six months ended June 30, 2016 and 2015 amounted to approximately \$ 946 and \$946 and \$ 0 and \$ 1,867, respectively.

Earnings (Loss) Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. The company has outstanding stock options which have not been included in the calculation of diluted net loss per share because to do so would be anti-dilutive. As such, the numerator and the denominator used in computing both basic and diluted net loss per share for each period are the same.

Income Taxes

The Company and its subsidiary file a consolidated federal income tax return. The provision for income taxes is computed by applying statutory rates to income before taxes.

Deferred income taxes are recognized for the tax consequences in future years of temporary differences between the financial reporting and tax bases of assets and liabilities as of each period-end based on enacted tax laws and statutory rates. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. A 100% valuation allowance has been established on deferred tax assets at June 30, 2016 and December 31, 2015, due to the uncertainty of our ability to realize future taxable income.

The Company accounts for uncertainty in income taxes in its financial statements as required under ASC 740, *Accounting for Uncertainty in Income Taxes*. The standard prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The standard also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition accounting. Management determined there were no material uncertain positions taken by the Company in its tax returns.

Statement of Cash Flows

For purposes of reporting cash flows, cash includes cash on hand and demand deposits held by banks.

6. Property and Equipment

Property and equipment are comprised of the following:

	June 30, 2016	December 31, 2015
Computer hardware and purchased software	\$ 305,811	\$ 302,800
Leasehold improvements	221,666	221,666
Furniture and fixtures	88,322	88,322
	615,799	612,788
Less: accumulated depreciation and amortization	(595,908)	(590,185)
Property and equipment, net	\$ 19,891	\$ 22,603

Total depreciation expense on the Company's property and equipment for the three and six months ended June 30, 2016 and 2015 amounted to \$ 2,767 and \$ 5,723, and \$2,673 and \$6,051 respectively.

7. Notes Payable

On July 17, 2009, the Company issued a note payable to the Ohio State Development Authority in the amount of \$1,012,500, bearing interest at a rate of 6.00% per annum ("Authority Loan No. 1"). Pursuant to the terms of the loan, the Company was required to pay only interest through September 30, 2010 and then monthly principal and interest payments of \$23,779 each through September 1, 2015. The note is secured by a senior secured interest on all business assets financed with loan proceeds, as well as a second secured interest in all business assets. Upon maturity, by acceleration or otherwise, the Company shall pay a loan participation fee of \$101,250, which is accounted for as a loan premium, accreted monthly, utilizing the interest method, over the term of the loan. In June, 2014, Intellinetics and the Ohio State Development Authority entered into a Notice and Acknowledgement of Modification to Payment Schedule relating to Authority Loan No.1, deferring a portion of the principal and interest payment until June 1, 2015. On September 25, 2015 Intellinetics and the Ohio State Development Authority entered into a Third Amendment to the Loan Agreement related to Authority Loan No. 1, deferring a portion of the principal payment until October 1, 2016 and extending the maturity date until August 1, 2018. As of June 30, 2016, the principal amount outstanding under Authority Loan No.1 was \$433,373.

On June 3, 2011, the Company issued a note payable to the Ohio State Development Authority in the amount of \$750,000, bearing interest at a rate of 1% per annum for the first 12 months, then interest at rate of 7% per annum for the second 12 months ("Authority Loan No. 2"). The Company was not obligated to remit payments of principal until September 1, 2013. The monthly principal and interest payments, beginning on the third anniversary of the loan origination, are \$14,850 and are payable on a monthly basis through August 1, 2018. The note is secured by a senior secured interest on all business assets financed with loan proceeds, as well as a second secured interest in all business assets. Upon maturity, by acceleration or otherwise, the Company shall pay a loan participation fee of \$75,000, which is accounted for as a loan premium, accreted monthly utilizing the interest method, over the term of the loan. The interest rate of 1% during the first 12 months of this loan was considered to be below market for that period. The Company further determined that over the life of the loan, the effective interest rate was 5.6% per annum. Accordingly, during the first 12 months of the loan, the Company recorded interest expense at the 5.6% rate per annum. The difference between the interest expense accrual at 5.6% and the stated rate of 1% over the first 12 months is credited to deferred interest. The deferred interest amount that is accumulated over the first 12 months of the loan term will be amortized as a reduction to interest expense over the remaining term of the loan. At June 30, 2016 and December 31, 2015, deferred interest of \$152,018 and \$136,078, respectively, was reflected within long term liabilities on the accompanying consolidated balance sheets. In June, 2014, Intellinetics and the Ohio State Development Authority entered into a Notice and Acknowledgement of Modification to Payment Schedule, deferring a portion of the principal and interest payment until June 1, 2015. On September 25, 2015 Intellinetics and the Ohio State Development Authority entered into a Third Amendment to the Loan Agreement related to Authority Loan No. 2, deferring a portion of the interest payment until October 1, 2016. As of June 30, 2016, the principal amount outstanding under Authority Loan No. 2 was \$499,661.

The Authority Loans were granted to the Company in connection with the State of Ohio's economic development programs. The proceeds from these loans were used by the Company to support its efforts in developing software solutions for its customers.

These Authority Loans are subject to certain covenants and reporting requirements. Intellinetics is required to, within three years of the respective loan origination dates of each of the Authority Loans, have created and/or retained an aggregate of 25 full time jobs in the State of Ohio. Should Intellinetics not have attained these employment levels by the respective dates, then the interest rates on the Authority Loans shall increase to 10% per annum. In July, 2014, the Company informed the State of Ohio that it would not meet the employment level of 15 new full-time employees as well as retain 10 existing full-time employees. As a result of this non-compliance with a covenant of Authority Loan No. 1, the Development Services Agency exercised its right to increase the interest rate from 6.0% to 7.0%, effective October 1, 2014. The approximate impact of this increase is to raise the Company's balloon payment by \$6,000 on Authority Loan No. 1, which is due, as amended on August 1, 2018. We have had past instances of non-compliance with certain of the loan covenants. We are currently in compliance with the all other loan covenants. There can be no assurance that we will not become non-compliant with one or more of these covenants in the future.

Between June 24, 2014 and July 7, 2014, the Company issued convertible promissory notes in an aggregate amount of \$135,000 (the “Notes in an Aggregate Amount of \$135,000”) to two accredited investors. The Convertible Notes matured on December 31, 2015 (the “Maturity Date”) and bear interest at an annual rate of interest of 10 percent until maturity, with interest payable quarterly. The Note Investors had a right, in their sole discretion, to convert the Convertible Notes into shares of Common Stock, par value \$0.001 per share, of the Company under certain circumstances at a conversion rate of \$0.56 per Share. If the Convertible Notes had not been fully repaid by the Company by the Maturity Date or converted into shares at the election of the Convertible Note Investors prior to the Maturity Date, then such Convertible Notes accrued interest at the annual rate of 12% from the Maturity Date until the date the Convertible Notes are repaid in full. The Company used the proceeds of the Convertible Note for working capital, general corporate purposes, and debt repayment. On January 6, 2016, the investor note holders converted \$135,000 of the convertible promissory notes and accrued interest of \$35,038, into 303,912 of common shares and 141,698 in company warrants to purchase common stock, as part of a private placement and note exchange commenced in December 2015. The warrants have an exercise price equal to \$0.65 per share and contain a cashless exercise provision. All warrants are immediately exercisable and have a term of five years from issuance. Interest expense of \$113,762 was recorded on the issuance of these warrants.

The table below reflects all notes payable at June 30, 2016 and December 31, 2015, respectively, with the exception of related party notes disclosed in Note 8 - Notes Payable - Related Parties.

	June 30, 2016	December 31, 2015
Authority Loan No. 1, due September 1, 2015	\$ 433,373	\$ 493,373
Authority Loan No. 2, due August 1, 2018	499,661	559,661
Notes payable due December 31, 2015	-	135,000
Total notes payable	933,034	1,188,034
Less: unamortized debt issuance costs	(2,840)	(4,255)
Less current portion	(323,934)	(401,573)
Long-term portion of notes payable	\$ 606,260	\$ 782,206

Future minimum principal payments of these notes payable with the exception of the related party notes in Note 8 - Notes Payable - Related Parties, as described in this Note 7 are as follows:

For the Twelve-Month Period Ended June 30,	Amount
2017	\$ 323,934
2018	372,231
2019	236,869
Total	\$ 933,034

As of June 30, 2016 and December 31, 2015, accrued interest for these notes payable with the exception of the related party notes in Note 8 - Notes Payable - Related Parties, was \$117,734 and \$138,486, respectively, and was reflected within accounts payable and accrued expenses on the consolidated balance sheets. As of June 30, 2016 and December 31, 2015, accrued loan participation fees were \$169,771 and \$166,039, respectively, and reflected within accounts payable and accrued expenses on the consolidated balance sheets. As of June 30, 2016 and December 31, 2015, deferred interest of \$152,018 and \$136,078, respectively, was reflected within long term liabilities on the consolidated balance sheets.

With respect to all notes outstanding (other than the notes to related parties), for the three and six months ended June 30, 2016, and 2015, interest expense, including the amortization of deferred financing costs, accrued loan participation fees, original issue discounts, deferred interest and related fees, interest expense related to warrants issued for the conversion of convertible notes, and the embedded conversion feature was \$ 20,340 and \$ 155,048, and \$19,453 and \$48,102, respectively.

8. Notes Payable - Related Parties

On March 2, 2009, the Company issued an unsecured promissory note payable to Jackie Chretien, in the amount of \$80,000 due January 1, 2016, as amended, and bearing interest at 5% per annum, with the principal and interest to be paid at maturity. On January 1, 2016 the Company paid in full the note payable of \$15,000 and accrued interest of \$4,403.

On December 29, 2001, the Company issued an unsecured promissory note payable to A. Michael Chretien, a Founder of the Company, in the amount of \$55,167, with any unpaid principal and interest due on January 1, 2016, as amended. On January 1, 2016 the Company paid in full the principal balance of \$40,415 plus accrued interest of \$7,053.

On March 29, 2012, the Company issued an unsecured note payable to Ramon Shealy a then -director of the Company, who subsequently resigned from the Board of Directors on December 17, 2012, for personal reasons, in the amount of \$ 238,000, bearing interest at a rate of 10 % for the term of the note. All principal and interest was due and payable on September 27, 2012, but was later extended to November 24, 2012. On April 16, 2012, the Company issued a note payable to Mr. Shealy, in the amount of \$ 12,000, bearing interest at a rate of 10 % per quarter. All principal and interest was due on July 15, 2012, but was later extended to November 24, 2012. On November 24, 2012 the two notes were combined into a \$250,000 promissory note, under the same terms, with a maturity date of January 1, 2014. On December 24, 2013 the \$250,000 promissory note, was extended under the same terms, with a maturity date of January 1, 2015. On March 13, 2013, the Company paid \$ 100,000 of the principal amount of the \$250,000 promissory note to Mr. Shealy. On December 31, 2014, the Company and Ramon Shealy agreed to cancel the previous notes and extensions set forth above, and issue a new single promissory note with accrued interest of \$43,453, to a total principal and interest in the amount of \$193,453, payable in sixty monthly installments beginning January 31, 2015, with a maturity date of January 1, 2020. Interest will accrue at 10% on the outstanding balance until paid in full. All other provisions of the original Promissory Note shall prevail unless specifically set forth herein or otherwise agreed in writing by the parties. As of June 30, 2016, the note payable had a principal balance of \$ 145,155 and \$ 0 accrued interest.

Notes payable due to related parties consist of the following:

	June 30, 2016	December 31, 2015
The \$80,000 Jackie Chretien Note	\$ -	\$ 15,000
The \$55,167 A. Michael Chretien Note	-	40,415
The \$250,000 Shealy Note	145,155	164,799
Total notes payable - related party	145,155	220,214
Less current portion	(36,449)	(92,805)
Long-term portion of notes payable-related party	<u>\$ 108,706</u>	<u>\$ 127,409</u>

Future minimum principal payments of these notes payable as described in this Note 8 are as follows:

For the Twelve Months Ended		
	June 30,	Amount
	2017	\$ 36,449
	2018	40,265
	2019	44,482
	2020	23,959
	Total	<u>\$ 145,155</u>

As of June 30, 2016 and December 31, 2015, accrued interest for these notes payable-related parties amounted to \$0 and \$12,852, respectively.

For the three and six months ended June 30, 2016 and 2015, interest expense in connection with notes payable – related parties were \$3,772 and \$7,733, and \$76,258 and \$143,509, respectively.

9. Deferred Compensation

Pursuant to the Company’s employment agreements with the founders, the Company has agreed with the founders to defer compensation totaling \$215,012 in cash that has been previously earned by the founders.

10. Commitments and Contingencies

Employment Agreements

The Company has entered into employment agreements with four of its key executives. Under their respective agreements, the executives serve at will and are bound by typical confidentiality, non-solicitation and non-competition provisions. Deferred compensation for the founders of the Company, as disclosed in footnote 9 above, is still outstanding as of June 30, 2016.

Operating Leases

On January 1, 2010, the Company entered into an agreement to lease 6,000 rentable square feet of office space in Columbus, Ohio at a monthly rent of \$ 3,375. The lease commenced on January 1, 2010 and, pursuant to a lease extension dated August 14, 2014, the lease expires on December 31, 2016. The Company has no other leases.

Future minimum lease payments under this operating lease are as follows:

	For the Twelve Months Ending June 30,		Amount
	2016	\$	20,250
Total		\$	20,250

Rent expense charged to operations for the three and six months ended June 30, 2016 and 2015 amounted to \$ 10,125 and \$ 20,250, and \$ 10,125 and \$ 20,250, respectively.

11. Stockholders' Equity

Description of Authorized Capital

The Company is authorized to issue up to 50,000,000 shares of common stock with \$ 0.001 par value. The holders of the Company's common stock are entitled to one vote per share. The holders of common stock are entitled to receive ratably such dividends, if any, as may be declared by the Board of Directors out of legally available funds. However, the current policy of the Board of Directors is to retain earnings, if any, for the operation and expansion of the business. Upon liquidation, dissolution or winding-up of the Company, the holders of common stock are entitled to share ratably in all assets of the Company that are legally available for distribution.

Sales of Unregistered Securities and Conversion of Convertible Promissory Notes

On December 11, 2015, the Company commenced a private offering of securities ("December offering") with certain accredited investors for up to 1,666,666 Units for a price of \$1.20 per Unit. Each Unit consisted of two (2) shares of common stock and a warrant to purchase one (1) share of common stock. The warrants are immediately exercisable to purchase one (1) share of common stock at an exercise price of \$0.65 per share and contain a cashless exercise provision and have a term of five years. This Offering was open for a period terminating on December 31, 2015 with an option to extend until January 31, 2016 at the election of the Company. Simultaneously with this Offering, the Company also offered to existing Noteholders the ability to convert into Common Stock any outstanding convertible notes issued by the Company, plus accrued interest, at each note's conversion price. In addition, upon such conversion, Noteholders received Noteholder warrants on the same terms as investors in the Offering. The warrants are immediately exercisable to purchase one (1) share of common stock at an exercise price of \$0.65 per share and contain a cashless exercise provision and have a term of five years.

On January 6, 2016 Noteholders exchanged \$135,000 of convertible promissory notes with accrued interest of \$35,038 for 303,912 shares of common stock and 141,698 of noteholders warrants, as part of the private placement in December 2015.

On January 25, 2016, the Company entered into security purchase agreements with accredited investors for 506,599 Units, which consisted of 1,013,198 shares of common stock, par value \$0.001 per share with 506,599 warrants for aggregate cash proceeds of \$607,919.

The Company retained Taglich Brothers, Inc. (the "Placement Agent") as the exclusive placement agent for the Offering. In connection with the Offering, the Company paid the Placement Agent a cash payment of 8% of the gross proceeds through the sale of the securities and the face value of the current outstanding convertible promissory notes that were converted, and reimbursement for reasonable out of pocket expenses, FINRA filing fees and related legal fees.

On January 27, 2016, The Placement Agent received cash payment of \$62,237 and 131,682 warrants to purchase common stock at an exercise price at \$0.715 per share, under the terms of the Placement Agent Agreement for the convertible notes and the sale of the unregistered securities. Of the warrants issued, 30,363 were in conjunction with the noteholder conversions, and underwriting expense of \$24,207 was recorded for the issuance of these warrants.

During the three and six months ended June 30, 2016, the Company charged \$ 0 and \$113,762, respectively, in interest expense for the warrants issued to the Noteholders and \$24,207 in underwriting expenses in regards to the warrants issued to the Placement Agent for the convertible promissory notes, utilizing the Black-Scholes valuation model to value the warrants issued. The weighted-average grant date fair value of warrants issued was determined to be \$0.80.

The estimated values of warrants, as well as the assumptions that were used in calculating such values were based on estimates at the issuance date as follows:

	Noteholders	Placement Agent
Risk-free interest rate	1.76%	1.54%
Weighted average expected term	5 years	5 years
Expected volatility	134.18%	134.18%
Expected dividend yield	0.00%	0.00%

Pursuant to the Purchase Agreement, the Company agreed to (a) file a registration statement with the SEC covering the re-sale of the Common Stock shares sold in the Offering and the Common Stock shares issuable upon exercise of the Placement Agent Warrants. The registration statement was filed on April 28, 2016.

The shares of Common Stock sold in the Offering were not registered under the Securities Act of 1933, as amended or the securities laws of any state, and were offered and sold in reliance on the exemption from registration afforded by Section 4(2) and Regulation D (Rule 506) under the Securities Act and corresponding provisions of state securities laws, which exempt transactions by an issuer not involving any public offering. The investors are “accredited investors” as such term is defined in Regulation D promulgated under the Securities Act.

Issuance of Restricted Common Stock to Directors

On January 2, 2016, the Company issued 69,433 new shares of restricted common stock to directors of the Company in accordance with the Company’s Equity Incentive Plan. Stock compensation of \$62,500 was recorded on the issuance of the common stock.

Exercise of Contingent Warrants

On February 15, 2013, the Company and A. Michael Chretien, a member of the Board of Directors of the Company, entered into a return to treasury agreement dated February 15, 2013, whereby A. Michael Chretien returned 500,000 shares of common stock of the Company, par value \$0.001 per share to the Company. As consideration for A. Michael Chretien returning to treasury 500,000 shares of common stock he owns, the Company issued one four-year warrant to A. Michael Chretien with a right to purchase 500,000 shares of common stock at \$0.007 per share within four years of the shareholders of the Company increasing the number of authorized shares of common stock of the Company, with piggyback registration rights. The warrant has a right of first refusal for A. Michael Chretien to exercise up to 500,000 shares prior to the Company issuing shares of common stock in any transaction. The Company issued the warrant in reliance on an exemption from registration pursuant to Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 of Regulation D, as promulgated by the SEC. On February 15, 2016, A. Michael Chretien exercised his right to purchase 500,000 common stock at \$0.007 per common share.

Shares Issued and Outstanding and Shares Reserved for Exercise of Warrants

Since the issuance of the shares of Common Stock described herein, the Company has 16,794,992 shares of Common Stock issued and outstanding; and 5,509,176 shares reserved for issuance upon the exercise of outstanding warrants and 1,930,557 shares reserved for issuance under the 2015 Intellinetics Inc. Equity Incentive Plan, as of June 30, 2016.

12. Share-Based Compensation

On January 1, 2016, the Company granted employees stock options to purchase 250,000 shares of common stock of the Company at an exercise price of \$0.90 per share in accordance with the 2015 Intellinetics, Inc. Equity Incentive Plan, with vesting continuing until 2019. The total fair value of \$196,250 for these stock options will be recognized by the Company over the applicable vesting period.

On February 10, 2016, the Company granted employees stock options to purchase 210,000 shares of common stock of the Company at an exercise price of \$0.96 per share in accordance with the 2015 Intellinetics, Inc. Equity Incentive Plan, with vesting continuing until 2020. The total fair value of \$174,748 for these stock options will be recognized by the Company over the applicable vesting period.

The weighted average estimated values of employee stock option grants, as well as the weighted average assumptions that were used in calculating such values during the three and six months ended June 30, 2016, were based on estimates at the date of grant as follows:

	January 1, 2016 Grant	February 10, 2016 Grant
Risk-free interest rate	1.76%	1.15%
Weighted average expected term	5 years	5 years
Expected volatility	134.18%	132.97%
Expected dividend yield	0.00%	0.00

A summary of stock option activity during the six months ended June 30, 2016 under our stock option agreements is as follows:

	Shares Under Option	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at January 1, 2016	768,000	\$ 0.75	9 years	\$ 115,200
Granted	460,000	0.93		
Exercised	-			
Forfeited and expired	-			
Outstanding at June 30, 2016	<u>1,228,000</u>	\$ 0.82	9 years	<u>\$ 115,200</u>
Exercisable at June 30, 2016	<u>590,500</u>	\$ 0.77	9 years	<u>\$ 79,200</u>

The weighted-average grant date fair value of options granted during the six months ended June 30, 2016 was \$0.81.

As of June 30, 2016, there was \$475,647 of total unrecognized compensation costs related to stock options granted under our stock option agreements. \$280,647 of the unrecognized compensation cost is expected to be recognized over a weighted-average period of three years. \$195,000 of the unrecognized compensation cost will be recognized upon satisfaction of the vesting contingency. The total fair value of stock options that vested during the six months ended June 30, 2016 was \$49,062.

13. Concentrations

Revenues from the Company's services to a limited number of customers have accounted for a substantial percentage of the Company's total revenues. For the three months ended June 30, 2016, the Company's two largest customers, Laser Systems ("Laser Systems"), a Reseller and Tiburon ("Tiburon"), a Reseller, accounted for 9% and 8%, respectively, of the Company's revenue for that period. For the three months ended June 30, 2015, the Company's two largest customers Bruner Corp ("Bruner"), a direct client and ComDoc, ("ComDoc"), a reseller, accounted for 10% and 9%, respectively, of the Company's revenue for that period. For the six months ended June 30, 2016, the Company's two largest customers, Laser Systems and Tiburon, accounted for approximately 10% and 9%, respectively, of the Company's revenues for that period. For the six months ended June 30, 2015, the Company's two largest customers Tiburon, a reseller, and Bruner, a direct client accounted for approximately 12% and 5%, respectively, of the Company's revenues for that period.

For the three months ended June 30, 2016 and 2015, government contracts represented approximately 39% and 39% of the Company's total revenues, respectively. A significant portion of the Company's sales to Tiburon represent ultimate sales to government agencies. For the six months ended June 30, 2016 and 2015 government contracts represented approximately 42% and 43%, respectively, of the Company's net revenue.

As of June 30, 2016, accounts receivable concentrations from the Company's two largest customers were 16% and 13% of gross accounts receivable, respectively. As of December 31, 2015, accounts receivable concentrations from the Company's three largest customers were 18 %, 13 % and 12 % of gross accounts receivable, respectively. Accounts receivable balances from the Company's two largest customers at June 30, 2016 have since been partially collected.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis of financial conditions and results of operations of the Company for the three and six months ended June 30, 2016, and 2015 should be read in conjunction with our financial statements and the notes to those financial statements that are included elsewhere in this Form 10-Q. References in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" to "the Company," "us," "we," "our," and similar terms refer to Intellinetics, Inc., a Nevada corporation ("Intellinetics"), and its sole operating subsidiary, Intellinetics, Inc., an Ohio corporation ("Intellinetics Ohio"), unless we state otherwise or the context indicates otherwise.

This discussion includes forward-looking statements, as that term is defined in the federal securities laws, based upon current expectations that involve risks and uncertainties, such as plans, objectives, expectations and intentions. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of a number of factors. Words such as "anticipate," "estimate," "plan," "continuing," "ongoing," "expect," "believe," "intend," "may," "will," "should," "could," and similar expressions are used to identify forward-looking statements.

We caution you that these statements are not guarantees of future performance or events and are subject to a number of uncertainties, risks and other influences, many of which are beyond our control, which may influence the accuracy of the statements and the projections upon which the statements are based. Factors that may affect our results include, but are not limited to, the risk factors that are included in Part I, Item IA of our 2013 Form 10-K. Any one or more of these uncertainties, risks and other influences could materially affect our results of operations and whether forward-looking statements made by us ultimately prove to be accurate. Our actual results, performance and achievements could differ materially from those expressed or implied in these forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether from new information, future events or otherwise.

Our Management's Discussion and Analysis of Financial Condition and Results of Operations section discusses our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition accrued expenses, financing operations, contingencies and litigation. We base our estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our financial statements include estimates as to the appropriate carry value of certain assets and liabilities which are not readily apparent from other sources. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the financial statements included in this report for the three months ended June 30, 2016.

Company Overview

The Company is an enterprise content management ("ECM") software development, sales and marketing company serving both the public and private sectors. In the public sector, the Company's products, services and process models serve, principally, the critical needs of law enforcement and compliance agencies within the state and local government establishment. The Company provides its software solutions principally through (i) the direct licensing of its software installed on customer computer platforms and (ii) providing the applications as a service, accessible through the internet. The Company's comprehensive solutions include services that range from pre-installation assessment, project scoping, implementation, consulting and ongoing software maintenance and customer support. In time, the Company anticipates that the provision of "cloud" application services, or software as a service, will become a more significant part of its software sales business.

The Company's software products allow customers to manage "enterprise content" (unstructured data such as hard-copy scanned documents, Word documents, Excel spreadsheets, JPEG files, images, pictures, faxes, audio/video files, emails, and PowerPoint presentations) through its entire life cycle. The Company's platform, Intellivue™, specializes in improving and enhancing business operations for clients by making document and content management simple, accessible and affordable. The Company offers industry-specific vertical "composite content applications" ("CCA") to clients in a pre-configured, on-demand basis through the "On-demand Solution Store™." This approach to deploying templates for specific business processes empowers clients to affordably manage their complete document life cycle inherently within the turnkey Intellivue™ platform.

To date, most of our software customers install our software onto computers at their location (premises-based). In time, the Company anticipates that the provision of "cloud" application services, or software as a service (SaaS), will become a more significant part of its software sales business. We anticipate that cloud-based services will become the principal part of our software sales business and a primary source of revenues for us, because this model allows customers to avoid significant upfront costs for hardware and installation services required for a premises-based delivery. That said, we are just beginning to see our customers migrate to such cloud-based services. Our revenues from cloud-based delivery of our software, as a percentage of total revenue for the period ended June 30, 2016 and June 30, 2015, were 18% and 10% respectively.

Our current sales strategy is to focus our sales efforts toward a much greater percentage of sales through intermediaries, such as software resellers and multi-function device resellers, rather than through direct sales. We have developed marketing programs with resellers that facilitate their selling and support of our software solutions. We refer to these resellers as our "channel partners." We believe that our channel partner strategy improvements have increased the competitive strength of our platform of products. In addition, we have established a set of business solutions templates that provide base software configurations which we believe will facilitate our delivery and installation of software to our customers. We believe that these advancements, in the aggregate, will allow us to license and sell our products to a broader customer base, shortening our sales cycle, making margins more consistent, and allowing us to expand our sales through new channel partnerships. We continue to devote significant efforts, in both development and marketing, in bringing about this change in core strategic focus for the Company.

Revenues

Revenues are generated from the licensing, subscription and maintenance of our enterprise software products and from professional services fees in connection with the implementation and integration of software applications. Our revenues, especially our license revenues, are impacted by the competitive strength of our software products, as well as general economic and industry conditions.

For our sales of software our customer base has traditionally been made up of customers with larger projects that can take as much as nine months to two years to complete. For these projects, our policy is to recognize revenue on the percentage of completion basis, measured by the percentage of labor hours incurred to date to estimated total labor hours for each contract, or on a completed contract basis when dependable estimates are not available.

Cost of Revenues

We maintain a staff of software design engineers, developers, installers and customer support personnel, dedicated to the development and implementation of customer applications, customer support and maintenance of deployed software applications. While the total costs related to these personnel are relatively consistent from period to period, the cost of revenues categories to which these costs are charged may vary depending on the type of work performed by our staff.

Costs of revenues also include the costs of server hosting and Software as a Service application, as well as certain third-party costs and hardware costs incurred. Third-party and hardware costs may vary widely from quarter to quarter.

Sales and Marketing Expenses

Sales expenses consist of compensation and overhead associated with the development and support of our channel sales network, as well as our direct sales efforts. Marketing expenses consist primarily of compensation and overhead associated with the development and production of product marketing materials, as well as promotion of the Company's products through the trade and industry.

General and Administrative Expenses

General and administrative expenses consist of the compensation and overhead of administrative personnel and professional services firms performing administrative functions, including management, accounting, finance and legal services, plus expenses associated with infrastructure, including depreciation, information technology, telecommunications, facilities and insurance.

Interest, Net

Interest, net, consists primarily of interest expense associated with our notes payable. See Results of Operations – Interest Expense – Net, for additional information.

How We Evaluate our Business Performance and Opportunities

Major Quantitative and Qualitative Factors We Consider in the Evaluation of our Business

The major qualitative and quantitative factors we consider in the evaluation of our operating results include the following:

- Our current strategy is to focus upon cloud-based delivery of our software products through channel partners. Historically, our revenues have mostly resulted from premise-based software licensing revenue and professional services revenue. Our observation of industry trends leads us to anticipate that cloud-based delivery will become our principal software business and a primary source of revenues for us, but we are just beginning to see our customers migrate to cloud-based services. Accordingly, when we evaluate our results, we assess whether our cloud-based software revenues are increasing, relative to prior periods and relative to other sources of revenue. Additionally, we assess whether our sales resulting from relationships with channel partners are increasing, relative to prior periods and relative to direct sales to customers. Finally, we consider the number of channel partners with which we have a contract or other relationship to be an indicator of our performance and future results.
- Our customer engagements often involve the development and licensing of customer-specific software solutions and related consulting and software maintenance services. When analyzing whether to undertake a particular customer engagement, we often consider all of the following factors as part of our overall strategy to grow the business: (i) the profit margins the project may yield, (ii) whether the project will allow us to enter a new geographic market, (iii) whether the project would enable us to demonstrate our capabilities to large national resellers, or (iv) whether the project would help to develop new product and service features that we could integrate into our suite of products, resulting in an overall product portfolio that better aligns with the needs of our target customers. As a result of this pipeline analysis, we may take on projects with a lower project margin if we determine that the project is valuable to our business for the other reasons discussed.
- Our sales cycle is long, sometimes lasting 18-24 months. Even when a project begins, we often perform pre-installation assessment, project scoping, and implementation consulting. Our revenue and profit in any particular period is significantly influenced by sales efforts and preliminary project work conducted in prior periods but not completed and recognized until the current period. Therefore, when we plan our business and evaluate our results, we consider the revenue we expect to recognize from projects in our late-stage pipeline.
- Our research and development efforts and expenses to create new software products are critical to our success. When developing new products or product enhancements, our developers collaborate with our own employees across a wide variety of job functions. We also gather in-depth feedback from our customers and channel partners. We evaluate new products and services to determine their likelihood of market success and their potential profitability.
- We monitor our costs and capital needs to ensure efficiency as well as an adequate level of support for our business plan.

Uncertainties, Trends, and Risks that can cause Fluctuations in our Operating Results

Our operating results have fluctuated significantly in the past and are expected to continue to fluctuate in the future due to a variety of factors. Factors that affect our operating results include the following:

- our capital needs, and the costs at which we are able to obtain capital;
- general economic conditions that affect the amount our customers are spending on their software needs, the cost at which we can provide software products and services, and the costs at which we can obtain capital;
- the development of new products, requiring development expenses, product rollout, and market acceptance;
- the length of our sales cycle;
- the fact that many of our customers are governmental organizations, exposing us to the risk of early termination, audits, investigations, sanctions, and other penalties not typically associated with private customers;
- our relationships with our channel partners, for purposes of product delivery, introduction to new markets and customers, and for feedback on product development;
- our need to increase expenses at the beginning of a customer project, while associated revenue is recognized over the life of the project;
- the potential effect of security breaches, data center infrastructure capacity, our use of open-source software, and governmental regulation and litigation over data privacy and security;
- whether our clients renew their agreements and timely remit our accounts receivable;
- whether we can license third-party software on reasonable terms;
- our ability to protect and utilize our intellectual property; and
- the effects of litigation, warranty claims, and other claims and proceedings.

Due to all these factors and the other risks discussed in “Part I, Item IA of our 2015 Form 10-K”, our results of operations should not be relied upon as an indication of our future performance. Comparisons of our operating results with prior periods is not necessarily meaningful or indicative of future performance.

Results of Operations

Overview

We reported net losses of \$401,964 and \$642,742 for the three months ended June 30, 2016 and 2015, respectively, representing a decrease in net loss of \$240,778 or 37%. We reported gross profit of \$457,671 and \$464,725 for the three months ended June 30, 2016 and 2015, respectively, representing a decrease in gross profit of \$7,054, or 2%. We reported operating expenses of \$835,523 and \$1,011,756 for the three months ended June 30, 2016 and 2015, respectively, representing a decrease in operating expenses of \$176,233, or 17%. The decrease in operating expenses was principally related to stock option compensation in 2015 offset by director fees and professional fees associated with adding additional personnel for the future growth of the Company in 2016. We reported net losses of \$937,730 and \$851,599 for the six months ended June 30, 2016 and 2015, respectively, representing an increase in net loss of \$86,131 or 10%. We reported gross profit of \$911,602 and \$934,963 for the six months ended June 30, 2016 and 2015, respectively, representing a decrease of \$23,361, or 2%. We reported operating expenses of \$1,686,551 and \$1,594,951 for the six months ended June 30, 2016 and 2015, respectively, representing an increase of \$91,600, or 6%. The increase in operating expenses was principally related to stock option compensation, director fees, marketing and professional fees associated with adding additional personnel for the future growth of the Company.

Revenues

We reported total revenues of \$636,749 and \$587,170 for the three months ended June 30, 2016 and 2015, respectively, representing an increase of \$49,579 or 8%. For the six months ended June 30, 2016 and 2015, respectively, revenues were \$1,240,140 and 1,170,945, respectively, representing an increase of \$69,195 or 6%.

Sale of Software

Revenues from the sale of software principally consist of sales of additional or upgraded software licenses and applications to existing customers and sales of software to our resellers. These software revenues were \$101,694 and \$147,723, for the three months ended June 30, 2016 and 2015, respectively, representing a decrease of \$46,029, or 31%. For the six months ended June 30, 2016 and 2015, respectively, revenues were \$192,568 and \$337,760 representing a decrease of \$145,192, or 43%. The decreases were due to concentrating our efforts to develop and expand our software as a service as discussed below.

Sale of Software as a Service

For those customers that wish to avoid the upfront costs of typical premises-based software installations, we provide access to our software as a service, accessible through the internet. Our customers typically enter into our software as a service agreement for periods in excess of one year. Under these agreements, we generally provide access to the applicable software, data storage and related customer assistance and support. Our software as a service revenues were \$116,343 and \$60,966 for the three months ended June 30, 2016 and 2015, respectively, representing an increase of \$55,377, or 91%. Our software as a service revenues were \$226,499 and \$117,505, for the six months ended June 30, 2016 and 2015, respectively, representing an increase of \$108,944 or 93%. The increase in revenue year-over-year was primarily the result of new customers and relationships with channel partners.

Sale of Software Maintenance Services

Software maintenance services revenues consist of fees for post contract customer support services provided to license holders. These agreements allow our customers to receive technical support, enhancements and upgrades to new versions of our software products when and if available. A substantial portion of these revenues were generated from customers to whom we sold software in prior years who have continued to renew their maintenance agreements. The support and maintenance agreements typically have a term of 12 months. Our software maintenance support revenue was \$245,317 and \$231,939, for the three months ended June 30, 2016 and 2015, respectively, representing an increase of \$13,378, or 6%. Our software maintenance support revenue was \$491,913 and \$460,610 for the six months ended June 30, 2016 and 2015, respectively, representing an increase of \$31,303, or 7%. The increase in revenue was primarily the result of the sale of new customer software and the continued maintenance of previous customers, for which maintenance agreements are renewed each year.

Sale of Professional Services

Professional services revenues consist of revenues from consulting, discovery, training, and advisory services to assist customers with document management needs. These revenues include those arrangements where we do not sell software license as an element of the overall arrangement. Professional services revenues were \$85,609 and \$92,782 for the three months ended June 30, 2016 and 2015, respectively, representing a decrease of \$7,173, or 8%. The decrease in revenue primarily results from a decrease in requests from our clients for projects during the second quarter. For the six months ended June 30, 2016 and 2015, respectively, professional services revenues were \$183,785 and \$175,020, respectively, representing an increase of \$8,765 or 5%. The increase primarily resulted from projects completed in the first quarter of 2016.

Sale of Third Party Services

Third party services consist of third party vendor software, hardware and/or services purchases as requested by our customers in conjunction with Intellinetics core software or services. Third party services revenues were \$87,786 and \$53,760, respectively, for the three months ended June 30, 2016 and 2015, respectively, representing an increase of \$34,026 or 63%. For the six months ended June 30, 2016 and 2015, respectively, third party services were \$145,375 and \$80,050, an increase of \$65,325, or 82%.

Cost of Revenues

The cost of revenues during the three months ended June 30, 2016 and 2015 were \$179,078 and \$122,445, respectively, representing an increase of \$56,633, or 46%. For the six months ended June 30, 2016 and 2015, respectively, the cost of revenues was \$328,538 and \$235,982, representing an increase of \$92,556, or 39%. The increase in cost of revenue for the period ended June 30, 2016 is primarily due to additional labor costs in completing software services, professional services and third party services.

Gross Margins

Overall gross margin for the three months ended June 30, 2016 and 2015 were 72% and 79%, respectively, representing a decrease of 7%. For the six months ended June 30, 2016 and 2015, the gross margins were 74% and 80%. The decrease in gross margin year-over-year is primarily as result of the mix in revenues, primarily professional and third party services.

Operating Expenses

General and Administrative Expenses

General and administrative expenses were \$528,163 during the three months ended June 30, 2016 as compared to \$791,404 during the three months ended June 30, 2015, representing a decrease of \$263,241, or 33%. The decrease was primarily due to stock option expense in 2015. For the six months ended June 30, 2016 and 2015, general and administrative expenses were \$1,177,292 and \$1,157,245, representing an increase of \$20,047 or 2%. The increase was primarily due to warrant expense relating to the conversion of notes payable to equity, employee stock option expense and Directors fees and stock expense issued in 2016, offset from a reduction in stock option expense in 2015.

Sales and Marketing Expenses

Sales and marketing expenses increased to \$304,593 during the three months ended June 30, 2016 as compared to \$217,679 during the three months ended June 30, 2015, representing an increase of \$86,914 or 40%. The increase was primarily related to our hiring additional sales personnel for business development for additional channel partners and with market branding of our products. For the six months ended June 30, 2016 and 2015, respectively, sales and marketing expenses were \$503,536 and \$431,655, representing an increase of \$71,881 or 17%. The increase was due to the increase in sales personnel and market branding in the last three months ended June 30, 2016.

Depreciation and Amortization

Depreciation and amortization was \$2,767 for the three months ended June 30, 2016, as compared to \$2,673 for the three months ended June 30, 2015, representing an increase of \$94 or approximately 4%. For the six months ended June 30, 2016 and 2015, respectively, depreciation and amortization was \$5,723 and \$6,051, representing a decrease of \$328. The decrease was the result of certain assets becoming fully depreciated.

Interest Expense, Net

Interest expense, net, was \$24,112 during the three months ended June 30, 2016 as compared to \$95,711 during the three months ended June 30, 2015, representing a decrease of \$71,599 or 75%. The decrease resulted from a decrease in the average debt balance outstanding as a result from the conversion of the convertible promissory notes. For the six months ended June 30, 2016 and 2015, respectively, interest expense was \$162,781 and \$191,611, a decrease of \$28,830 or 15%. The decrease resulted primarily from a decrease in the average debt balance outstanding during the six months ended June 30, 2016 offset by interest expense charged for warrants on the conversion of the convertible promissory notes in the first quarter of 2016.

Liquidity and Capital Resources

We have financed our operations primarily through a combination of cash on hand; cash generated from operations, and proceeds from private sales of equity. As of June 30, 2016, our major liquidity indicators are:

- Cash \$ 401,842
- Working Capital Deficiency \$ (896,714),
- Through June 30, 2016 we have incurred cumulative net losses since inception of \$14,316,169.

From our inception, we have generated revenues from the sales and implementation of our internally generated software applications. Our plan is to increase our sales and market share by developing an expanded network of resellers through which we expect to sell our expanded software product portfolio. We expect that this marketing initiative will require us to develop an expanded sales force and enhance our product marketing efforts, all of which will require additional capital. Although management believes that we may have access to additional capital resources, there are currently no commitments in place for new financing, and there is no assurance that we will be able to obtain funds on commercially acceptable terms, if at all.

On January 25, 2016 the Company entered into a securities purchase agreements with certain accredited investors for a private placement of common stock with attached warrants for gross proceeds of \$607,919, which was part of a private placement in December 2015. The proceeds from the private placement were used to fund our working capital needs and debt repayment.

The Company expects that through the next 12 months the capital requirements to fund the Company's growth and to cover the operating costs as a public company will consume substantially all the cash flows that it intends to generate from its operations. The Company further believes that during this period, while the Company is focusing on the growth and expansion of its business, the gross profit that it expects to generate from operations may not generate sufficient funds to cover these anticipated operating costs. Our cash requirements are insufficient by approximately \$110,000 per month. Assuming over the next 9 to 12 months, we do not increase our cash flow generated from operations or obtain additional capital or debt financing, we will not have sufficient liquidity to fund operations.

There is no assurance that the Company's plans as discussed above will materialize and/or that the Company will have sufficient funds to fund the Company's operations. Given these conditions, the Company ability to continue as a going concern is contingent upon increasing its revenues and successfully managing its cash requirements.

Assuming that we are successful in our growth plans and development efforts, we believe that we will be able to raise additional funds through sales of our common stock, issuance of debt or some other financing source. There is no guarantee that we will be able to raise these additional funds or do so on acceptable terms.

Our financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should we be unable to continue as a going concern.

Liquidity and Capital Resource - Equity Capital Resources

Shares Issued and Outstanding and Shares Reserved for Exercise of Warrants

As of June 30, 2016, the Company has 16,794,992 shares of common stock issued and outstanding; and 5,509,176 shares reserved for issuance upon the exercise of outstanding warrants and 1,930,557 shares reserved for issuance under the 2015 Intellinetics Inc. Equity Incentive Plan.

Our shares are available for quotation on the Over-the-Counter Bulletin Board and OTC Pink, and we believe this is important for raising capital to finance our growth plan. We intend to deploy any future capital we may raise to expand our sales and marketing capabilities, develop ancillary software products, enhance our internal infrastructure, support the accounting, auditing and legal costs of operating as a public company, and provide working capital.

Liquidity and Capital Resource - Debt Capital Resources

Promissory Notes

On December 31, 2014, the Company and Ramon M. Shealy converted their previous promissory notes, whose total principal balance and unpaid interest was \$193,453 to a new single promissory note, with a maturity date of January 1, 2020. For more information, please see Note 8 to the Consolidated Financial Statements, titled Notes Payable.

On December 31, 2014, Intellinetics Ohio and Jackie M. Chretien, who is related to the Chairman and Secretary of the Company, and who is also related to the President, CEO, and director of the Company extended their original promissory note, with a maturity of January 1, 2015, by a Promissory Note Extension Agreement, with the maturity date of January 1, 2016 without changing any other terms of that promissory note. On January 1, 2016, the Company paid in full the principal and interest of this promissory note.

On December 31, 2014, Intellinetics and A. Michael Chretien, who is the Secretary and Chairman of the Company, extended a promissory note with a maturity date of January 1, 2015, into a promissory note maturity of January 1, 2016. Without changing any other terms of that promissory note. On January 1, 2016, the Company paid in full the principal and interest of this promissory note.

Issuance of Convertible Notes.

Between June 24, 2014 and July 7, 2014, the Company issued new convertible promissory notes as a source of debt liquidity to certain related and unrelated accredited investors. In January 2016, note investors converted \$135,000 of principal and \$35,038 of accrued interest in common stock with attached warrants. As of June 30, 2016 there are no convertible promissory notes outstanding. For more information, please see Note 7 to the Consolidated Financial Statement.

Summary of Current Outstanding Indebtedness

The Company's outstanding indebtedness at June 30, 2016 is as follows:

- Promissory note held by Ohio State Development Authority, dated July 17, 2009, with an original principal balance of \$1,012,500, and current principal balance of \$433,373.
- Promissory note held by Ohio State Development Authority, dated July 3, 2011 with an original principal balance of \$750,000, and current principal balance of \$499,661.
- Promissory note held by Ramon Shealy, dated December 31, 2014, with an original principal balance of \$193,453, and current principal balance of \$145,155.

There were no material commitments for capital expenditures at June 30, 2016.

Cash Flows

Operating Activities

Net cash used in operating activities for the six months ended June 30, 2016 and 2015 was \$1,079,990 and \$334,024 respectively. During the six months ended June 30, 2016, the net cash used in operating activities was primarily attributable to the net loss adjusted for non-cash expenses of \$310,125 and a decrease in net operating liabilities of \$452,385. During the six months ended June 30, 2015, the net cash used in operating activities was primarily attributable to the net loss adjusted for non-cash expenses of \$462,261 and an increase in net operating liabilities of \$55,314.

Investing Activities

Net cash used in investing activities for the six months ended June 30, 2016 and 2015 amounted to \$3,011 and \$0, respectively, and was related to the purchase of property and equipment.

Financing Activities

Net cash provided by financing activities for the six months ended June 30, 2016 amounted to \$367,725. The net cash provided by financing activities resulted from the sale of common stock, offset by \$195,060 of notes payable repayments, of which \$75,060 was repaid to related parties.

Net cash provided by financing activities for the six months ended June 30, 2015 amounted to \$248,695. The net cash provided by financing activities resulted from new related party borrowings of \$360,000, offset by \$111,305 of notes payable repayments, of which \$15,305 was repaid to related parties.

Critical Accounting Policies and Estimates

There have been no significant changes during the six months ended June 30, 2016 to the items that we disclosed as our critical accounting policies and use of estimates in our "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2015 Form 10-K.

Liquidity, Going Concern and Management's Plans

We have incurred substantial recurring losses since our inception. The accompanying financial statements have been prepared assuming that we will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities and commitments in the normal course of business. We are also in the process of exploring strategies to increase our existing revenues. We believe we will be successful in these efforts; however, there can be no assurance we will be successful in raising additional debt or equity financing or finding any other financing source to fund our operations on terms agreeable to us. These matters raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if we were unable to continue as a going concern.

Use of Estimates

The preparation of our consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to exercise its judgment. We exercise considerable judgment with respect to establishing sound accounting policies and in making estimates and assumptions that affect the reported amounts of our assets and liabilities, our recognition of revenues and expenses, and other financial information.

On an ongoing basis, we evaluate our estimates and judgments. Areas in which we exercise significant judgment include, but are not necessarily limited to, our valuation of accounts receivable and income taxes.

We base our estimates and judgments on a variety of factors, including our historical experience, knowledge of our business and industry, current and expected economic conditions, and the attributes of our products and services. We periodically re-evaluate our estimates and assumptions with respect to these judgments and modify our approach when circumstances indicate that modifications are necessary.

While we believe that the factors we evaluate provide us with a meaningful basis for establishing and applying sound accounting policies, we cannot guarantee that the results will always be accurate. Since the determination of these estimates requires the exercise of judgment, actual results could differ from such estimates.

A description of significant accounting policies that require us to make significant estimates and assumptions in the preparation of our consolidated financial statements is the allowance for doubtful accounts and valuation allowance for deferred tax assets.

We establish allowances for doubtful accounts based on certain percentages of accounts sixty days or more past due and when available information causes us to believe that credit loss is probable. Due to historical losses, a full valuation allowance is recognized on deferred tax assets.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable to smaller reporting companies.

Item 4. Controls and Procedures.

(a) *Evaluation of disclosure controls and procedures.*

With the participation of our principal executive officer and principal financial officer, we evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act. In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that we are required to apply our judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on our evaluation, our principal executive officer and principal financial officer concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures were not effective as required under Rules 13a-15(e) and 15d-15(e) under the Exchange Act as a result of the material weaknesses in our internal control over financial reporting.

The following material weakness, which relates to internal control over financial reporting, was identified for the Annual Report on Form 10-K for the year ended December 31, 2015, and has not been remediated:

We did not maintain technical accounting knowledge, and training in the application of GAAP commensurate with our complexity and our financial accounting and reporting requirements. In connection with the audit of the December 31, 2015 consolidated financial statements a number of required adjustments were identified by our independent registered public accounting firm related to our December Offering of stock and warrants and the conversion of convertible debt. As a result, there is a reasonable possibility that material misstatements of the consolidated financial statements, including disclosures, will not be prevented or detected on a timely basis.

We are evaluating the continuing material weakness, as well as the need and costs to increase our personnel resources and technical accounting expertise within the accounting function. As our operations are relatively small, we do not anticipate being able to hire additional internal personnel until such time as our operations are large enough to justify the hiring of additional accounting personnel. As necessary, we may engage consultants in the future in order to ensure proper accounting for our consolidated financial statements.

(b) Changes in internal control over financial reporting.

There were no changes in our internal control over financial reporting that occurred during the six months ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

None.

ITEM 1A. RISK FACTORS.

Our business and operating results are subject to many risks, uncertainties and other factors. If any of these risks were to occur, our business, affairs, assets, financial condition, results of operations, cash flows and prospects could be materially and adversely affected. These risks, uncertainties and other factors include the information discussed elsewhere in this report as well as the risk factors set forth in "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, which have not materially changed as of the date of this report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

There have been no securities sold by the registrant during the period covered by this Quarterly Report on Form 10-Q that have not previously been included on a Form 8-K.

ITEM 3. DEFAULT UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not Applicable.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

The following is a list of exhibits filed as part of this Quarterly Report on Form 10-Q.

<u>Exhibit No.</u>	<u>Description of Exhibit</u>
10.1	Master Services Reseller Agreement, dated April 5, 2016, with an effective date of April 1, 2016. (Incorporated by reference to Exhibit 10.1 to Registrant's Current Report on Form 8-K, filed April 11, 2016.)
31.1*	Certification of Principal Executive Officer pursuant to Section 302 of The Sarbanes-Oxley Act of 2002.
