Notes to the Financial Statements
June 30, 2003

GENERAL
- - - - -

Globalwise Investments, Inc. (the Company) has elected to omit substantially all footnotes to the financial statements for the six months ended June 30, 2003, since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on the Form 10-KSB for the twelve months ended December 31, 2002.

UNAUDITED INFORMATION
- - - - -

The information furnished herein was taken from the books and records of the Company without audit. However, such information reflects all adjustments which are, in the opinion of management, necessary to properly reflect the results of the interim period presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

In this report references to "Globalwise," "we," "us," and "our" refer to Globalwise Investments, Inc.

FORWARD LOOKING STATEMENTS

This quarterly report contains certain forward-looking statements and for this purpose any statements contained in this report that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, words such as "may," "will," "expect," "believe,"

"anticipate," "estimate" or "continue" or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending on a variety of factors, many of which are not within Globalwise's control. These factors include, but are not limited to, economic conditions generally, failure by management to successfully develop business relationships, competition within the merger and acquisitions market, and the lack of operations

ITEM 2. PLAN OF OPERATIONS

We are a development stage company with no assets and we have experienced losses since our inception. As a result, we are dependent on financing to continue our operations. For the six month period ended June 30, 2003, we had no cash on hand and total current liabilities of \$26,345. Since inception, we have primarily financed our operations through the sale of our common stock.

We have no commitments for capital expenditures for the next twelve months. The majority of our expenses are related to our reporting obligations under the Exchange Act. We accrued \$26,345 of expenses related to the professional services required to prepare our reports and the costs of filing the reports with the SEC. We may repay these accounts payable with cash, if available, or we may convert them into common stock. Also, if we acquire a business opportunity we may incur additional reporting expenses related to proxy or information statements we must provide to our stockholders which disclose the company to be acquired's business operations, management and financial condition.

Our management intends to actively pursue business opportunities during the next twelve months. Based on current economic and regulatory conditions, management believes that it is possible, if not probable, for a company like ours, without many assets or liabilities, to negotiate a merger or acquisition with a viable private company. The opportunity arises principally because of the high legal and accounting fees and the length of time associated with the registration process of "going public." However, should any of these conditions change, it is very possible that there would be little or no economic value for anyone taking over control of Globalwise. As of the date of this filing, we have not identified any assets or business opportunities for acquisition, nor have we made a formal study of the economic potential of any business.

Potential investors must recognize that because of our limited capital available for investigation and management's limited experience in business analysis we may not discover or adequately evaluate adverse facts about the business opportunity to be acquired. Also, all risks inherent in new and inexperienced enterprises are inherent in our business.

It is emphasized that our management may effect transactions having a potentially adverse impact upon our shareholders pursuant to the authority and discretion of our management to complete an acquisition without submitting the acquisition proposal to the stockholders for their consideration.

Should a merger or acquisition prove unsuccessful, it is possible that we may decide not to pursue further acquisition activities and management may abandon its activities and our shares would become worthless.

ITEM 3: CONTROLS AND PROCEDURES

Our President, who acts in the capacity as principal executive officer and principal financial officer has designed and established disclosure controls and procedures to ensure that material information is made known to him in a timely manner by others within the company. Our President reevaluated the effectiveness of these disclosure controls and procedures as of the end of the period covered by this report and determined that there continued to be no significant deficiencies in these procedures.

Also, our President evaluated the design or operation of our internal control over financial reporting which relates to our ability to record, process, summarize and report financial information. He did not find any significant deficiency or material weakness which would require changes to be made or corrective actions to be taken related to our internal control over financial reporting. Nor did he identify fraud that involved management or other employees who had a significant role in our internal control over financial reporting.
