Notes to the Financial Statements  
September 30, 2008

GENERAL

Globalwise Investments, Inc. (the Company) has elected to omit substantially all footnotes to the financial statements for the nine months ended September 30, 2008, since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on the Form 10-K for the twelve months ended December 31, 2007.

UNAUDITED INFORMATION

The information furnished herein was taken from the books and records of the Company without audit. However, such information reflects all adjustments which are, in the opinion of management, necessary to properly reflect the results of the interim period presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

## FORWARD LOOKING STATEMENTS

The Securities and Exchange Commission ("SEC") encourages companies to disclose forward-looking information so that investors can better understand future prospects and make informed investment decisions. This report contains these types of statements. Words such as "may," "expect," "intend," "believe," "anticipate," "estimate," "project," or "continue" or comparable terminology used in connection with any discussion of future operating results or financial performance identify forward-looking statements. You are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this report. All forward-looking statements reflect our present expectation of future events and are subject to a number of important factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### *Executive Overview*

We are a development stage company and have not recorded revenues from operations for the past two fiscal years. During the next twelve months our management intends to actively seek an operating company to acquire or merge with which may provide operating revenue. Based on current economic and regulatory conditions, management believes that it is possible, if not probable, for a company like ours, without many assets or liabilities, to negotiate a merger with or acquisition of a viable private company. The opportunity arises principally because of the high legal and accounting fees and the length of time associated with the process of "going public." However, should a merger or acquisition prove unsuccessful, it is possible that we may decide not to pursue further merger/acquisition activities.

As of the date of this filing, we have not identified any assets or business opportunities for acquisition or merger. Potential investors must recognize that our management may effect transactions having a potentially adverse impact upon our shareholders pursuant to the authority and discretion of our management to complete acquisitions without submitting any proposal to the stockholders for their consideration. In addition, because we have limited capital available for investigation of business opportunities and management has limited experience in business analysis, we may not discover or adequately evaluate adverse facts about any particular business opportunity. All risks inherent in new and inexperienced enterprises are inherent in our plan.

### *Financial Condition*

We have had recurring operating losses for the past two fiscal years and, historically, we have relied on loans to meet our cash requirements. In the short term, we intend to rely on equity or debt transactions with third parties and/or related parties to provide additional capital. We may repay this debt with cash, if available, or may convert the debt into common stock. We also may issue common stock for services rendered to us.

At September 30, 2008 we had cash of \$590 and total liabilities of \$54,995. The majority of our expenses are related to the preparation of our periodic reports under the Exchange Act. These expenses include legal, accounting and professional services and costs required to prepare and file our reports with the SEC. We are unable to pay cash for these services and we will need to raise additional funds during the next twelve months.

If we obtain a business opportunity, then it may be necessary to raise additional capital through the sale of our common stock. We anticipate that the common stock will be issued pursuant to exemptions to registration provided by federal and state securities laws. The purchasers and manner of issuance will be determined according to our financial needs and the available exemptions from the registration requirements. We do not currently intend to make a public offering of our stock. We also note that if we issue more shares of our common stock, then our shareholders may experience dilution in the value per share of their common stock.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

### ITEM 4T. CONTROLS AND PROCEDURES

#### *Disclosure Controls and Procedures*

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported within the periods specified in the rules and forms of the SEC. This information is accumulated to allow timely decisions regarding required disclosure. Our President, who serves as our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, he concluded that our disclosure controls and procedures were effective.

#### *Management's Report on Internal Control over Financial Reporting*

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the criteria set forth in "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Management determined that there were no changes made in our internal control over financial reporting during the third quarter of our 2008 fiscal year that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.
